The document contains a detailed map with various overlays and symbols indicating different land resources and features. The map is focused on rural areas of the Darling Range in the Perth Metropolitan Region of Western Australia. It includes various landform and soil associations, as well as information on slope, soil depth, and rock outcrop. The map is designed for use in the context of land resource assessment and planning, specifically for agriculture and rural development, with a scale of 1:50,000. The legend provides a key to the symbols used, and the map includes areas designated for various uses such as farmland, forestry, and conservation. The map is produced by the Department of Agriculture, Western Australia, and is part of a series of land resource maps of Western Australia.
