CONCURRENT SESSIONS

STRATEGIC MANAGEMENT  Sub Convenor – Emma Kopke

Finishing Pastoral Lambs………………………………………… 17
    Peter Tozer, Patricia Harper, Janette Drew
Coating improves wool quality under mixed farming conditions  19
    K.E. Kemper, M.L. Hebart, F.D. Brien, K.S. Jaensch, R.J Grimson,
    D.H. Smith, A.M.M Ramsay
Data Retrieval from Walk –Through- Weighing……………… 21
    J.S. Richards, K.D. Atkins, T.Thompson, W.K. Murray
Strategic Risk Management in the Sheep Industry…………… 23
    JRL Hall
Joining prime lambs for the northern end of the market – a systems
approach……………………………………………………………… 25
    Chris Carter, Peter Tozer
Lifetime Wool – Dry feed budgeting tool……………………….. 27
    Mike Hyder, John Young
Influence of ultrafine wool fibre curvature and blending with cashmere on attributes of
knitwear……………………………………………………………… 29
    B.A. McGregor

Part 3

CUSTOMER  Sub Convenor - Emma Kopke

Benefits of VIAScan® to producers and WAMMCO…………….. 31
    Rob Davidson, David Pethick
Healthy fats in lamb: how WA lambs compare with others... 33
    C.F. Engelke, B.D. Siebert, K.Gregg, A-D. G Wright, P.E. Vercoe
Shelf life of fresh lamb meat: lamb age & electrical stimulation 35

Dr Robin Jacob

Pastures from Space – An evaluation of adoption by Australian Woolgrowers…………………………………………………….... 37

Russell Barnett, Joanne Sneddon

Your clients can learn from ASHEEP’s example……………… 39

Sandra Brown

Lifetime Wool – Farmers’ attitudes affect their adoption of recommended ewe management…………………………………………………. 41

G.Rose, C.Kabore, J.Dart

Sustainable certification of Australian merino, what will the customer be looking for? ………………………………………………………. 43

Stuart Adams

Part 4

REPRODUCTION Sub Convenor – Sandra Brown

Is it worth increasing investment to increase lambing percentages? 45

Lucy Anderton

What value is a Lamb?…………………………………………………. 47

John Young

Providing twin-bearing ewes with extra energy at lambing produces heavier lambs at marking…………………………………………. 49

Rob Davidson, Keith Croker, Ken Hart, Tim Wiese

GENETICS Sub Convenor – Sandra Brown

Underlying biological causes of trade-off between meat and wool. Part 1 Wool and muscle glycogen………………………………… 51

B M Thomson, I Williams, JR Briegel, JC Greeff

Underlying biological causes of trade-off between meat and wool. Part 2. Wool and fatness…………………………………………… 53
NR Adams, EN Bermingham, JR Briegel, JC Greeff

Genetic trade-offs between lamb and wool production in Merino breeding programs ............................................................... 55

Johan Greeff

Clean fleece weight is not phenotypically independent of other traits.

Sue Hatcher, Gordon Refshauge 57

When you’re on a good thing, do it better: An economic analysis of sheep breed profitability.............................. 59

Emma Kopke, Ross Kingwell, John Young

Selection Demonstration Flocks: Demonstrating improvements in the productivity of Merinos......................................................... 61

You are compromising yield by using Dust Penetration and GFW in breeding programs......................................................... 63

Melanie Dowling, A (Tony)Schlink, Johan Greeff

Merino sheep can be bred for resistance to breech strike........ 65

Johan Greeff, John Karlsson

Parasite resistant sheep & hypersensitivity diarrhea............... 67

L.J.E. Karlsson, JC Greef

Part 5

MARKET INFORMATION

Sub Convenor – Sandra Brown

Crystal Spring – Crystal Clear and Consistent......................... 69

Geoff Duddy, Brent McLeod, John Sullivan

An overview of recent developments in dark and medullated fibre testing ............................................................... .... 71

T.J. Mahar, A.Balasingam

Opportunities and implications for wool producers of the TEAM3 prediction equations......................................................... 73

J.H. Stanton and K.M.S. Curtis

Premiums and discounts for fibre properties in superfine wool, now and in the future?............................................................... 75

K.M.S. Curtis and P.R. Lamb
FEEDLOTTING

Sub Convenor – Ned Crossley

Manure in sheep fedlots: problem or opportunity? ............ 77
Eliza Dowling, Ned Crossley, Surender Mann

The state of lamb confinement feeding in WA ................. 79
Ned Crossley

Finishing lambs in a feed lot – Is it profitable? ............... 81
Lucy Anderton

Repeated live weights can marginally improve prediction of compliance to market specifications.............................. 83
Matthew Kelly, Andrew Swan, Ian McFarland

WELFARE

Sub Convenor – Ned Crossley

Mulesing accreditation – to be or not to be?.................... 85
Di Evans

The economic and research implications of managing merino sheep without Mulesing............................................. 87
K.Bell, D.Sackett

How do lambs fare during curfew........................................ 89
Dr Robin Jacob

Part 6

PASTURE/GRAZING

Sub Convenor – Ned Crossley

New annual pastures – quality and quantity for fodder conservation?
Sarah Pugh, Giles Glasson 91
Saltbush Pastures : Dispelling some Myths....................... 93
Ed Barrett-Lennard, Hayley Norman, Matt Wilmot, Meir Altman, Kelly Pearce, Sally Phelan, David Masters

Patures: Putting profit back into sandplain

Nadine Eva

Pastures from Space® - Can be used to make profitable strategic and tactical management decisions on farm

Brad Wooldridge, Stephen Gherardi, Lucy Anderton, Gonzalo Mata

Are new farming systems based on perennial pastures in south west Australia more profitable?

P. Sanford, J Young

Sown Fodders, Rotational grazing and merinos make money in a drought

Tim Wiley

Lifetime Wool – The ‘best bet’ optimum condition score profile for Merino ewes lambing in winter

Chris Oldham, Mike Hyder, Mandy Curnow, Samantha Giles, John Young, Andrew Thompson

Part 7

POSTERS

Sub Convenor – Tanya Kilminster

Sulphur in wool and its implications for fleece weight and sheep health

S.M. Liu, A.C. Schlink, J.R. Williams, M.E. Dowling, J.C. Greeff

Stubbles for sheep: a reality check

Roy Butler, Keith Croker

Genetic benchmarking using artificial insemination

L.G. Butler, J.C. Greeff

The potential lambing performances of ewes in mixed aged flocks

Keith Croker, Rob Davidson, Ken Hart, Doug Harrington, Mario D’Antuono

National Livestock Identification System (Sheep) in Western Australia
Julian Gardner

DISPLAYS – Tools  
Sub Convenor – Tara Crommelin

To Feed or Not to Feed – If only Hamlet had the Calculator!......  115

Geoff Duddy

Worm Boss – A national Australian computer – based sheep
worm control tool.......................................................  117

R G Woodgate

‘Eye in the sky’ takes guesswork out of farmers pasture
Decisions........................................................................  119

Richard Stovold
