*Pigs, from Cave to Corn Belt, by C. W. Towne and E. N. Wentworth. Norman, Oklahoma, 1950.*

*Principles and Methods of Animal Breeding, by R. B. Kelley. 2nd ed. Syd., 1949.*

**NATIONAL INSTITUTE OF AGRICULTURAL ENGINEERING—TEST REPORTS**

A complete set of the above Test Reports on a wide range of agricultural machinery is now in stock. In all nearly 150 machines including tractors, combine harvesters, seed drills, knapsack sprayers, ploughs, etc., etc., have been tested within the last five years. The type of test naturally varies with different types of machines, but most test reports contain a brief specification of the machine; principal dimensions and technical data, output, etc.; a detail of the test applied and the results including fuel consumption, etc., together with notes on the general suitability of the machine for its purpose, faults observed and so on. The Reports are, of course, authoritative and unbiased.

It is not possible to list all the Reports in the book list, but inquiries for any particular machine may be made at any library and if demand justifies it a list of the Reports will be supplied and kept up to date.
ALDI CONCENTRATE is readily miscible with hard or soft water. Simply pour the concentrate into the required volume of water and stir. Aldi may be applied with a brush, swab, hand spray or jetting plant. Aldi is available in 1 pint bottles, 1 and 5 gallon drums.
