COVER PICTURE
The Murchison River be­
tween A j a n a and its
estuary flows to a long
horseshoe shape g o r­
e which varies in depth from
100 to 250 feet. Although
lying or situated close to
the road to the Murchison
estuary this gorge is but
rarely seen by the tourists
because of the intervening
sandy country and absence
of tracks. It could form
a distinctive t o u r i s t s'
attraction to its already
popular area.
