The safest fence for every class of stock

LONGER LASTING. "Cyclone" Ringlock Fencing of highest tensile quality galvanised wire is practically everlasting. The "Ringlock" joint binds hard-steel upright and horizontal wires immovably together, giving immense strength.

FIRE RESISTANT. Because of its unique construction from hard-steel wire, "Cyclone" Ringlock Fencing will not sag, break or twist in a fire like normal fencing. As no droppers are required, and fewer posts, there is less chance of dangerous tangles resulting from burnt-out wire supports.

STOCK-PROOF. Upright and horizontal strands are clamped together, giving a stock-proof enclosure. Alternative types are available for Sheep, Lambs, Pigs and Cattle. Prices, heights and all details are available on request.

... and costs you less to erect!

With fewer post holes to dig, and the fence strained up in one operation, erection time and costs are much lower.

See your local "Cyclone" distributor or

CYCLONE COMPANY OF AUSTRALIA LTD.
Cnr. Brown & Line St East Perth.
BF 1454

and at Melbourne, Sydney, Adelaide, Brisbane, Townsville.

MAKERS OF THE FAMOUS "CYCLONE" GATES
