Western Australia

Volume 16, No. 2 (4th series), 1975

CONTENTS

34 **DECIDE—How much superphosphate**

An outline of the DECIDE method for recommending superphosphate application rates for crops and pastures.

39 **The sheep measles control programme**

A unique experiment in community, local government and Department of Agriculture co-operation brings good progress against a difficult problem.

44 **Lupin breeding in Western Australia—The narrow-leaved lupin**

A review of past and present activities in breeding crop lupins in Western Australia . . . and plans for future work.

50 **The banana industry at Carnarvon**

In spite of emphasis on vegetable growing, Carnarvon remains a major producer of high quality bananas.

55 **Research Round-up**

Calcium and phosphorus requirements in lupin seed rations for pigs—Carnarvon studies on cucurbit viruses—Good potential for pangola grass—Autumn shearing improves manufacturing quality of wool.
