CONTENTS

70 The Mediterranean white lupin
   Historical notes on the Mediterranean white lupin, recently
   released for commercial production in Western Australia but
   cultivated (in its bitter form) for thousands of years in Medi­
   terranean countries.

75 Emus on the move—1976
   Why emus from the pastoral areas congregated for “the
   greatest migration of emus in recent times”—and how the
   Agriculture Protection Board handled the exodus.

77 The control of annual ryegrass
   A review of research into annual ryegrass—and current recom­
   mendations for its control.

82 Efficiency of sprinkler irrigation systems
   Comments on the design of sprinkler systems for more efficient
   use of water.

85 Bounty systems in vermin control
   A critical review of bounty systems in animal population
   management finds little evidence of success.

90 Wild oats in W.A.
   Some results of a detailed ecological study of an important
   crop weed, with notes on cultural and chemical control
   methods.

96 The cork oak
   A brief description of the cork oak and cork production, with
   comments on commercial prospects for cork in Western Aus­
   tralia.

98 Research round-up
   Strip vs continuous grazing of irrigation pasture—
   Testing crop varieties in 1975/76.
