# Journal of Agriculture

Western Australia

Volume 17, No. 3 (4th series), 1976

## CONTENTS

**70 The Mediterranean white lupin**

Historical notes on the Mediterranean white lupin, recently released for commercial production in Western Australia but cultivated (in its bitter form) for thousands of years in Mediterranean countries.

**75 Emus on the move—1976**

Why emus from the pastoral areas congregated for "the greatest migration of emus in recent times"—and how the Agriculture Protection Board handled the exodus.

**77 The control of annual ryegrass**

A review of research into annual ryegrass—and current recommendations for its control.

**82 Efficiency of sprinkler irrigation systems**

Comments on the design of sprinkler systems for more efficient use of water.

**85 Bounty systems in vermin control**

A critical review of bounty systems in animal population management finds little evidence of success.

**90 Wild oats in W.A.**

Some results of a detailed ecological study of an important crop weed, with notes on cultural and chemical control methods.

**96 The cork oak**

A brief description of the cork oak and cork production, with comments on commercial prospects for cork in Western Australia.

**98 Research round-up**

Strip vs continuous grazing of irrigation pasture—  
Testing crop varieties in 1975/76.
