Western Australia

Volume 18, No. 1 (4th series), 1977

## CONTENTS

- 4 The philosophy of drenching sheep in Western Australia**  
Much of the worm drench used on sheep is wasted because it is used in the wrong circumstances.
- 6 Noise-induced hearing loss**  
Noise hazards and the need for hearing protection on the farm
- 10 Botany and origins of serradella**  
Annual legume native to the Mediterranean region.
- 11 Serradella—a pasture legume for sandy soils**  
The agronomy and use of serradella as a pasture legume in Western Australia.
- 15 Sources of nitrogen for cereals—urea, ammonium nitrate or sulphate of ammonia?**  
Detailed comparisons of sources, times and methods of application of nitrogenous fertilisers for cereal crops.
- 19 How do bankers make lending decisions?**  
Review of a research report.
- 20 Research Roundup**  
Recent research on cattle worms—Stocking rates for weaner sheep on standing crops—South-West soybean variety trials—Cutting lupins stops lupinosis.
- 26 Polythene storage helps lupin seed germination**  
Storage trials indicate a technique to improve germination rate of sandplain lupin seed.
- 28 Residual value of manganese for split seed in lupins**  
Strong residual effect of manganese applied to previous crops.
- 29 Potato storage research in W.A.**  
Progress report of trials aimed at improving storage of local potatoes.
