DAFWA has not reviewed or revised the information before making the document available from its research library website. Before using the information, you should carefully evaluate its accuracy, currency, completeness and relevance for your purposes. We recommend you also search for more recent information on DAFWA's research library website, DAFWA's main website (https://www.agric.wa.gov.au) and other appropriate websites and sources.

Information in, or referred to in, documents on DAFWA's research library website is not tailored to the circumstances of individual farms, people or businesses, and does not constitute legal, business, scientific, agricultural or farm management advice. We recommend before making any significant decisions, you obtain advice from appropriate professionals who have taken into account your individual circumstances and objectives.

The Chief Executive Officer of the Department of Agriculture and Food and the State of Western Australia and their employees and agents (collectively and individually referred to below as DAFWA) accept no liability whatsoever, by reason of negligence or otherwise, arising from any use or release of information in, or referred to in, this document, or any error, inaccuracy or omission in the information.
## Contents

Journal of Agriculture — Western Australia  
Volume 20, No. 4 (4th Series), 1979 ISSN 0021 — 8618

Make machinery make money  
This issue of the Journal of Agriculture is based on papers presented at a seminar held at Hyden in August this year. The seminar, “Make machinery make money”, was organised by the Kondinin and districts farm improvement group.

99 The machinery crisis  
The problem of how to make machinery make money is a critical one for farmers.

101 How to select a tractor  
A method for choosing a tractor to suit the job.

104 Matching tractors and implements  
Implement load must be balanced with tractor output for best results.

108 Reliability of seeding machines  
A survey which is essential reading for farmers with seeding machinery.

109 Options for machinery and labour  
Some options to consider when deciding on labour and machinery inputs.

111 Getting the best from tractor tyres  
Details to help in choice and use of tractor tyres.

117 Simplifying lubricants for farm machinery  
How lubricants for farm machinery have become more versatile.

118 Service and spare parts  
Some responsibility for purchaser and dealer in delivery of machinery.

120 Replacing farm machinery  
Alternatives to consider when replacing cultivation equipment.

121 Labour management  
Management of labour must be wise, sensitive, practical and system-oriented.

123 Research in farm machinery  
Programmes for development of farm machinery.

126 Calibration of boom sprays
