IMPORTANT DISCLAIMER

This document has been obtained from DAFWA's research library website (researchlibrary.agric.wa.gov.au) which hosts DAFWA's archival research publications. Although reasonable care was taken to make the information in the document accurate at the time it was first published, DAFWA does not make any representations or warranties about its accuracy, reliability, currency, completeness or suitability for any particular purpose. It may be out of date, inaccurate or misleading or conflict with current laws, polices or practices. DAFWA has not reviewed or revised the information before making the document available from its research library website. Before using the information, you should carefully evaluate its accuracy, currency, completeness and relevance for your purposes. We recommend you also search for more recent information on DAFWA's research library website, DAFWA's main website (https://www.agric.wa.gov.au) and other appropriate websites and sources.

Information in, or referred to in, documents on DAFWA's research library website is not tailored to the circumstances of individual farms, people or businesses, and does not constitute legal, business, scientific, agricultural or farm management advice. We recommend before making any significant decisions, you obtain advice from appropriate professionals who have taken into account your individual circumstances and objectives.

The Chief Executive Officer of the Department of Agriculture and Food and the State of Western Australia and their employees and agents (collectively and individually referred to below as DAFWA) accept no liability whatsoever, by reason of negligence or otherwise, arising from any use or release of information in, or referred to in, this document, or any error, inaccuracy or omission in the information.
# Honey Flora Calendar for May

**Compiled by R. S. Coleman, Apicultural Section, with assistance from the Botanical Branch**

<table>
<thead>
<tr>
<th>Common Name</th>
<th>Botanical Name</th>
<th>Where Found</th>
<th>Honey Quality</th>
<th>Honey Quantity</th>
<th>Pollen Quality</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Karri</td>
<td><em>Eucalyptus diversicolor</em> F. Muell.</td>
<td>Winter flowering karri on the south coast; Walpole-Albany</td>
<td>Excellent</td>
<td>Excellent</td>
<td>Poor</td>
<td>There have been no reports of buds in this area, but could be expected to flower this year.</td>
</tr>
<tr>
<td>Bullich</td>
<td><em>E. megacarpa</em> F. Muell.</td>
<td>Found on the south coast (Normanup to Denmark); extending northwards along the Darling Range</td>
<td>Good</td>
<td>Good</td>
<td>Unknown; probably good</td>
<td>Widespread in the wetter regions but there are few if any dense stands of this tree.</td>
</tr>
<tr>
<td>Flat Top Yate or Swamp Yate</td>
<td><em>E. occidentalis</em> Endl.</td>
<td>Widespread in the lower South-West. Grows mainly in the wetter regions</td>
<td>Excellent</td>
<td>Excellent</td>
<td>Unknown</td>
<td>There are no reports of buds for this year. One report that they are carrying quite a lot of seed vessels has been received.</td>
</tr>
<tr>
<td>Wandoo</td>
<td><em>E. redvinea</em> Schau. var. <em>elata</em> Benth.</td>
<td>On western slopes of the hills south of Perth; also occurs north of Perth to Bindoon and Callingra, extending northwards to Coorow</td>
<td>Excellent</td>
<td>Excellent</td>
<td>Poor</td>
<td>Some bud for this year but no definite flow.</td>
</tr>
<tr>
<td>Orange Banksia</td>
<td><em>Banksia prionotes</em> Lindl.</td>
<td>Widespread in sandy soils</td>
<td>Good</td>
<td>Good</td>
<td>Good</td>
<td>Will be finished flowering towards the end of May.</td>
</tr>
<tr>
<td>Menzies Banksia</td>
<td><em>B. menziesii</em> R. Br.</td>
<td>Widespread in sandy coastal country</td>
<td>Good</td>
<td>Good</td>
<td>Good</td>
<td>Will be finished flowering towards the end of May.</td>
</tr>
<tr>
<td>Kerosene Bush</td>
<td><em>Dryandra ashbyi</em> Burtt.</td>
<td>Widespread in gravelly soils north of Dandaragan to Murchison River</td>
<td>Good</td>
<td>Good</td>
<td>Good</td>
<td>Beekeepers have reported that this plant fails in some years. This could be due to the fact that although it flowered, it produced no nectar. Also it may be one of a group and the rest of the group may have either flowered and not produced or not flowered at all.</td>
</tr>
<tr>
<td>White Bell</td>
<td><em>Leucopogon conosiphoides</em> D.C.</td>
<td>Widespread in the Southern Division, usually on sandy soil</td>
<td>Excellent</td>
<td>Excellent</td>
<td>Good</td>
<td>The best of the many species of heaths.</td>
</tr>
<tr>
<td>White Heath</td>
<td><em>L. proquinus</em> R. Br.</td>
<td>Widespread in the South-West</td>
<td>Good</td>
<td>Good</td>
<td>Good</td>
<td>Not as good as the White Bell.</td>
</tr>
