- Australia and New Zealand: 20s.
- Other British Commonwealth Countries: 23s.
- Foreign Countries: 29s.
- Single copies: 2s. each.

Articles which appear in the Journal may be reprinted, provided that both the Journal and the authors are acknowledged.

COVER PICTURE
Four and a half sheep to the acre have been set stocked since October, 1961, on this area of 120 acres at the Esperance Downs Research Station. So far they have produced a total of more than 100 lb. of wool per acre. Besides lifting production, set stocking also has a place in soil conservation farming—just how is told in an article on page 142 of this issue.

Contents

Establishing Wheatbelt Pasture?—Don't Use a Cover Crop
J. A. C. Smith and D. B. Argyle

Set Stocking has a Place in Soil Conservation Farming
J. E. Watson

Treating Severe Saltland

Pigs Have a Place in the Dairying Areas
P. McNamara

Apple and Pear Growing in Western Australia—A survey of trends in planting
F. Melville

Plant Diseases—
Sclerotinia Disease of Vegetables
S. C. Chambers
