List of Department of Agriculture publications

Department of Agriculture, Western Australia
IMPORTANT DISCLAIMER

This document has been obtained from DAFWA's research library website (researchlibrary.agric.wa.gov.au) which hosts DAFWA's archival research publications. Although reasonable care was taken to make the information in the document accurate at the time it was first published, DAFWA does not make any representations or warranties about its accuracy, reliability, currency, completeness or suitability for any particular purpose. It may be out of date, inaccurate or misleading or conflict with current laws, polices or practices. DAFWA has not reviewed or revised the information before making the document available from its research library website. Before using the information, you should carefully evaluate its accuracy, currency, completeness and relevance for your purposes. We recommend you also search for more recent information on DAFWA's research library website, DAFWA's main website (https://www.agric.wa.gov.au) and other appropriate websites and sources.

Information in, or referred to in, documents on DAFWA's research library website is not tailored to the circumstances of individual farms, people or businesses, and does not constitute legal, business, scientific, agricultural or farm management advice. We recommend before making any significant decisions, you obtain advice from appropriate professionals who have taken into account your individual circumstances and objectives.

The Chief Executive Officer of the Department of Agriculture and Food and the State of Western Australia and their employees and agents (collectively and individually referred to below as DAFWA) accept no liability whatsoever, by reason of negligence or otherwise, arising from any use or release of information in, or referred to in, this document, or any error, inaccuracy or omission in the information.
DEPARTMENT OF AGRICULTURE PUBLICATIONS

THE following publications are available on application from the Department of Agriculture.

Most of the bulletins listed are reprints from the Journal of Agriculture and are free of charge (except where a price is stated). The date of original publication of reprints is stated to facilitate reference to bound volumes of the Journal.

Bulletins may be obtained by applying to the enquiry counters of the Department of Agriculture in Treasury Buildings, Cathedral Ave., Perth or Jarrah Rd., South Perth, or by writing to the Department of Agriculture, Jarrah Rd., South Perth. Bulletin numbers should be quoted when ordering by letter.

These publications are free to farmers and in limited quantities to members of the public seeking specific advice. They will not be issued to students for school project purposes; publications for school projects will only be supplied through the Education Department.

2706 The Burnett Control Gate for Irrigation Channels—Jan., 1960.
3097 The Quality of Groundwaters in the Central Wheatbelt of W.A.—Apr., 1963.

LIGHT LAND DEVELOPMENT
Accurate levels
from 6 inches to 150 feet

There are no screws, spirit levels, or other troublesome adjustments to worry the user of a "Cowley" automatic level. The instrument automatically adjusts itself. Vibrations or bumps cannot upset your levels. So simple is it to use that it can be entrusted to unskilled workmen without impairing accuracy in results. When removed from the tripod the Cowley automatically locks itself, thereby reducing the possibility of damage to a minimum. The Cowley is the only level that will operate efficiently in any light.
