COVER PICTURE

Sheep on pasture at the  
Department of Agriculture's  
Wongan Hills Research Station.  
The paddock in the foreground was stocked at  
2 1/2 sheep an acre from the  
break of the season until the  
picture was taken in July.  
It is part of an old sub-clover  
paddock cropped in 1962 and  
town to rose clover in 1963.
