the Journal may be re-
printed, provided that both
the Journal and the auth-
ors are acknowledged.

COVER PICTURE

**WHEAT STEM RUST
DISEASE**

Magnified wheat stems
and leaf showing the stem
rust fungus which has
erupted through the sur-
face. These pustules con-
sist of myriads of micro-
scopic spores in the "red"
or active stage or in the
black stage which forms
later in the season and is
functionless under West
Australian conditions.

Stem rust and other dis-
eases of wheat are featur-
ed in an article beginning
on page 117 of this issue.

Contents
