the Journal may be re-
printed, provided that both
the Journal and the auth-
ors are acknowledged.

COVER PICTURE

This Hereford cross breeder
with 8-month old calf was
raised at the Wongan Hills
Research Station. The cat-
tle which were set stocked
at 1 breeder and calf to 4
acres received 1,000 lb. of
cereal hay in the March-
June period.

An article discussing the
production of 12 to 15-
month "winter" baby beef
which appears on p. 343 of
this issue supplements two
previous articles on beef
production which appeared in
the October 1967 issue of
the Journal.
